

Strategic Objectives of the Income and Sales Tax Department

Objective 1: Implementing tax legislation and managing tax operations in accordance with international best practices to ensure the provision of targeted tax revenues to the Treasury as stipulated in the General Budget Law.

Objective 2: Combatting tax evasion, addressing tax avoidance, and enhancing voluntary compliance among taxpayers in order to achieve tax equity.

Objective 3: Promoting comprehensive digital transformation within the tax system through the integration of digital projects into the functions and responsibilities of an efficient and effective tax administration.

Objective 4: Improving institutional efficiency and human resource capabilities in the areas of tax auditing, collection, and inspection, while fostering an innovative work environment that attracts and retains qualified competencies.

Objective 5: Enhancing the cybersecurity system and its governance within the department to ensure the protection of tax data and information, and maintain the confidentiality and integrity of digital systems, guaranteeing the continuity of electronic services and taxpayers trust, and reducing cyber risks and threats.
